

Memo from
JOSHUA LEDERBERG

To: Dr. Marvin Goldberger
Dept Physics
Princeton U.

Best wishes

MAR 9 - 1978

I was pleased to see the news of
your acceptance of the presidency of
Cal Tech; and I am sure you can
understand my sense of symmetrical
affinity as we prepare to exchange
"coasts", east for west.

after we have both settled in, I
hope we can have some occasions to
exchange notes; and if you find
yourself in New York City I hope you
will visit; or let me know any way
that Rockefeller Univ. can be helpful to
you.

Yours cordially
Joshua.
